## Въвеждащи думи

Настоящият тематичен библиографски справочник обхваща част от най-новите изследвания в областта на добрите практики, техники, знания, опит, умения, процедури и приложения на професионалното образование и обучение през целия живот.

Събраните ресурси са плод на задълбочено проучване и библиографски анализ на публикувани документи, отразени в различни платформи: библиотечни електронни каталози, платформи за професионално обучение и др.

За целите на поставените от проекта задачи са издирени различни документи, свързани както с европейските програми и техните нормативни уредби, така и с концепции и практики на различни страни в Европа, САЩ, Австралия и Азия.

Селектирани са и професионални списания по темата, достъпни в електронна среда.

Целта на този библиографски ресурс е да бъде своевременно и постоянно надграждан и допълван с ключови ресурси по темата.

Предназначен е за всички, които проявяват изследователски и публичен интерес към проблемите на професионалното образование и обучение през целия живот, и особено в областта на културните и творческите индустрии.
